MORE ATTITUDE.

MORE INTENSITY FOR A MACHINE THAT WILL TURN HEADS.

Dunes? Desert? Trails? Polaris Engineered Accessories™ offer more ways to fuel your passion and lifestyle. Because superior style isn't about conforming, it's about endless possibilities. And Polaris® offers more accessories that look right, fit right and work right so you can show off your unmatched originality with pride and confidence.

ENGINEERING NEVER STOPS.

When engineering is done well, when design is dialed-in down to the smallest detail, it's not always easy to notice. But it makes a world of difference. Lines are cleaner. Angles are tighter. The package is complete. For the Polaris Engineered™ team, fine-tuning accessories for seamless integration is what it's all about.

“The entire team is working together and integrating our processes,” says Steve Eastman, Vice President of PG&A. “We’re working further up front between the design of the vehicle and the accessories that go with that vehicle.”

From testing different UV ray exposures on various materials, beating on bumpers in the workroom, listening to riders and getting out and riding on their own time — Polaris® Engineers never stop listening and never stop refining.

“With a Polaris Engineered™ product, you know it's the world's best. They are designed specifically for our vehicles, ensuring high quality designs that meet our customers' needs,” says Dave Longren, Vice President of Off-Road Vehicles. “You know when you buy an accessory or part from us, it's the best.”

The Polaris® team knows that hard work, harder testing and endless innovating is key to making solutions that optimize any ride.

“We make the best products in power sports and that's a real tribute to the superiority of our engineering and the emphasis that we have on integration, innovation and quality,” says Eastman.

EXPANDED ANCHOR MOUNT

The Expanded Anchor Mount is tougher than conventional nuts and bolts. This hardware uses technology that allows you to change out custom accessories with no loose hardware and no damage to your frame, all in less than 5 minutes. It's also aggressively styled to perfectly match your RZR®.

LIGHTING/AUDIO INTEGRATION

The new frame is engineered specifically for lighting and audio integration. Specific mounting points make for seamless accessory integration, hiding wiring within the cab's frame, securing your cords from damage and making for cleaner and easier install. The frame has predetermined roof-mounting locations for easy installation of accessory lighting, dash-mounted controls, overhead audio and overhead lighting.

CAB COMPONENTS

Fully customize your cab. Custom doors offer pro-grade performance and protection. A lower door installs directly on a stock door in under 10 minutes, and integrated hinges and striker plates offer robust door construction and integrated sealing surfaces to help keep debris out of the cab. The integrated visor provides Lock & Ride® Sport Roof installation, with superior sealing and protection. Integrated mounting points provide simple, clean installation of all cab accessories.

GLACIER® PRO PLOW SYSTEM

LOCK & RIDE

GLACIER® PRO PLOW

- Heavy-duty cast steel frame for maximum durability
- Lock & Ride® for easy blade installation and removal
- 66" W x 17" H heavy-duty blade
- Low-maintenance, self-contained electric over hydraulic cylinders
- Modular design lets you choose: Hydraulic or Winch Lift
- Choice of blade angle control: Hydraulic or Manual Angle
- Lift and angle adjustments can be made from the driver's seat
- Manual angle with shear pin design protects plow in high-impact contact
- Manual angle adjustment is easily accessible, prevents digging into snow to change angle
- Auto-retracting kickstand folds in as you drive away

! Plow system does not work with tracks.

STEP 1: SELECT A MOUNT

STEP 4: SELECT A BLADE

GLACIER® PRO 66" POLY BLADE

- Strong, durable, lightweight Poly Plow Blade is ideal for a wide range of residential driveway plow jobs
- Polyethylene snow blade flexes and absorbs impact so less impact energy and stress is transmitted to the machine while plowing
- 66"-wide blade has forward-angled corners and scoop design for increased plowing surface
- Poly blade can flex in all temperatures and will not rust like metal blades
- Includes a replaceable metal wear bar

2880269

GLACIER® PRO 66" STEEL BLADE

- Strong, durable steel construction ensures this plow blade will tackle big jobs season after season
- With impressive, 66" span, blade moves large quantities of material with each pass
- Comes with replaceable metal wear bar

2880268

GLACIER® 2 PLOW BLADES:

66" SNO-GLIDE BLADE

GOGGLES

KEEP DEBRIS OUT SO YOU CAN KEEP YOUR EYES WHERE THEY BELONG - ON THE TRAIL. POLARIS®-EXCLUSIVE GOGGLES ARE DESIGNED WITH YOUR RIDE IN MIND SO YOUR LOOK CAN BE MORE INTEGRATED FROM VISOR TO VEHICLE.

509® FOR POLARIS®

509® DIRT PRO GOGGLES

509® for Polaris® goggles are loaded with performance-driven innovations for avid riders who insist on the best eye protection. These goggles provide the ultimate combination of protection, comfort, ventilation, tear-off compatibility and style.

Size: Oversized frame and lens fit inside all standard moto helmets' goggle port and provide broad visibility.

Lens: Protective, shatterproof, single-pane chrome lens; non-vented dirt lens has a durable anti-scratch and anti-fog coating; blocks 100% of UV rays and is easily interchangeable with accessory lenses.

Strap: Innovative hinged-strap mount allows the goggles to remain flush against the face for optimized protection and comfort; ensures that the goggles form a seal against the face to block dirt, dust and wind; adjustable, silicon-backed strap remains securely in place where positioned on helmet.

Foam: Triple-layer foam construction consists of 3 layers of moisture-wicking foam of varying densities for a comfortable fit on the face.

Tear-Off Compatible: Unique triple tear-off post design includes 2 posts on the lens and a third adjustable post attached to the strap for enhanced tear-off installation and removal.

Nose Guard: Rigid, vented nose guard protects nose and can be installed or removed in seconds.

Ventilation: 13-port vent system (7 on top, 7 at base of frame) promotes fresh air circulation for comfort and fog prevention.

JERSEYS

FLY RACING® JERSEYS

Developed by avid off-road riders, this lightweight, colorful jersey from the FLY Racing® for Polaris® Collection features materials and construction that promote airflow to keep an active rider cool and comfortable.

Fabric: Lightweight 100% polyester panels combine with mesh ventilation panels in key areas to promote airflow and dissipate body heat.

Graphics: Vibrant, permanent sublimated graphics, including Polaris® and FLY Racing® branding.

Additional Features: Low-profile, multi-directional Lycra® stretch collar; non-restrictive shorty cuffs with elastic sleeves help reduce arm pump; extended tail helps keep jersey tucked into pants; tagless printed collar eliminates tag irritation.
